

# State & Local Government Technology Solutions

Powered by Comcast Business

## State and local government agencies strive to be at the forefront of innovation and service delivery.

IT leaders must regularly update technology for secure and efficient access, by employees and citizens, to their growing network of devices.

At Comcast Business, we understand you need technology partners that can help you build the capabilities and capacity to meet the demands of a rapidly digitizing society — with flexibility and scale. Innovation is critical when you need to:

- **Regularly improve operational efficiency**
- **Stay ahead of citizen demands**
- **Implement advanced technologies to protect assets from malicious actors**

## Why State & Local Governments trust Comcast Business as their technology partner

### Enable **Citizen-Centric Digital Experiences**

- Reliable **Connectivity** to power the high-bandwidth applications that serve your agency's citizens.
- **Data Networking** solutions to connect your agency's locations, data centers, and cloud services.
- **Smart City Solutions from Comcast Smart Solutions** to make your city a better place to live, work, and play.

### Help Protect **Connected Devices** & Improve **Employee Productivity**

- **Secure Networking** solutions to help manage, optimize, and secure your agency's network across multiple locations.
- **DDoS Mitigation** to help protect your agency's network from ransomware and malware by detecting potential attacks.
- **Endpoint Detection and Response** to help protect sensitive citizen data from data breaches by monitoring and securing your endpoints.
